For immediate release

### Intergo acquires ErgoConseils

**Laval, December 15<sup>th</sup>, 2016.** Intergo's management is proud to announce its acquisition of ErgoConseils, an ergonomics entreprise founded in 1993 and run by Audrey Lalumière, a pioneer in the field in Quebec.

The goal of this partnership is first and foremost to continue providing ErgoConseils' clients with quality service in ergonomics. Ms. Lalumière is recognized among her peers and has a solid reputation serving large businesses. She obtained a bachelor's degree in occupational therapy from Université Laval in 1979, did graduate studies in occupational health and safety and obtained a master's degree in ergonomics in England. She is a member of the Association of Canadian Ergonomists (ACE) and is a Certified Canadian Professional Ergonomist (CCPE). Her expertise in several areas has led her to travel throughout Quebec province, Canada, the United States and Australia.

After practicing in her field for over 35 years, Ms. Lalumière is ready to retire. However, she will remain available to her clients to ensure a smooth transition over the next 18 months. She will also stay on as a seasoned mentor, for the great benefit of the entire Intergo team. Activities will extend over a vast territory, including the city of Québec, eastern Quebec, Centre-du-Québec, Montérégie and Montréal.

Intergo is taking up the torch with great confidence and rigour. In business for over 19 years, the company is considered as a leader in the field of ergonomics, occupational rehabilitation, health and safety and training. Relying on a team of more than 15 professionals, including four ergonomists, ErgoConseils clients will have access to all the expertise required to meet their needs. Each Intergo team member has an average 16 years of experience, and the company completes over 1,000 assignments per year, working with private businesses, unions, the CNESST, the SAAQ, governments, insurance companies, prevention mutual, individuals and more.

"It is a great honour for us to acquire Audrey's business. She taught several colleagues and has been a source of inspiration for many Quebec ergonomists," said Isabelle Gagné, Erg., a CCPE-certified ergonomist and associate at Intergo.
